

**ORDINANCE NO. 2018- 12**

**AN ORDINANCE ASCERTAINING THE PREVAILING RATE OF  
WAGES FOR CONSTRUCTION WORK IN THE  
VILLAGE OF WINNEBAGO, ILLINOIS**

**WHEREAS**, the State of Illinois has enacted "An Act regulating wages of laborers, mechanics and other workers employed in any public works by the State, county, city or any public body or any political subdivision or by anyone under contract for public works," approved June 26, 1941, codified as amended, 820 ILCS 130/1 et. seq. (1993), formerly Ill. rev. stat., ch. 48, par. 39s-1 et seq. and

**WHEREAS**, the aforesaid Act requires that the Village Board of Trustees of the Village of Winnebago, Winnebago County, Illinois, investigate and ascertain the prevailing rate of wages as defined in said Act for laborers, mechanics, and other workers in the locality of said Village of Winnebago employed in performing construction of public works for said Village.

**NOW, THEREFORE, BE IT ORDAINED BY THE PRESIDENT AND THE BOARD OF TRUSTEES OF THE VILLAGE OF WINNEBAGO AS FOLLOWS:**

**Section 1:** To the extent and as required by "An Act regulating wages of laborers, mechanics and other workers employed in any public works by the State, county, city or any public body or any political subdivision or by anyone under contract for public works," approved June 26, 1941, as amended, the general prevailing rate of wages in this locality for laborers, mechanics and other workers engaged in construction of public works coming under the jurisdiction of the Village of Winnebago is hereby ascertained to be the same as the prevailing

rate of wages for construction work in the Winnebago County area as determined by the Department of Labor of the State of Illinois as of September 1, 2017, with a copy of that determination as of September 1, 2017, being attached hereto as Exhibit "A" and incorporated herein by reference. As required by said Act, any and all revisions of the prevailing rate of wages by the Department's September 1, 2017 determination shall apply to any and all public works construction undertaken by the Village of Winnebago. The definition of any terms appearing in this ordinance which are also used in the aforesaid Act shall be the same as in said Act.

**FURTHER**, on August 31, 2017, the Illinois Department of Labor (IDOL) published technical corrections to the rates originally posted on August 15, 2017. Revised rates are highlighted in yellow in the county rate schedules in which they appear. Additionally, rates for certain Electricians, Plumbers, and Pipefitters classifications that were mistakenly included in the rate schedules originally published for some counties were eliminated. Revised rates published on August 31, 2017, are effective as of September 1, 2017.

Also, on September 25, 2017, April 11, 2018, and May 24, 2018, the IDOL published subsequent rounds of technical corrections to the Prevailing Wage schedules that were originally published on August 15, 2017. Rates revised on September 25, 2017, are highlighted in green in the county rate schedules in which they appear. Rates revised on April 11, 2018, are highlighted in blue in the county rates schedules in which they appear. Rates revised on May 24, 2018, are highlighted in gray in the county rate schedules in which they appear. The corrected rates published on September 25, 2017, April 11, 2018, and May 24, 2018, were effective as of the date of their publication.

Changes highlighted in pink were changes made pursuant to the Prevailing Wage Act,

Section 9 challenges, which section deals with the prevailing wage rates established. These rates are effective as of the dates of their publication, which for the "Machinist" category, applicable to the Village of Winnebago, was May 30, 2018.

Section 2: Nothing herein contained shall be construed to apply said general prevailing rate of wages as herein ascertained to any work or employment except public works construction of the Village of Winnebago to the extent required by the aforesaid Act.

Section 3: The Village of Winnebago shall publicly post or keep available for inspection by any interested party in the main office of the Village of Winnebago this determination or any revisions of such prevailing rate of wage. A copy of this determination or of the current revised determination of prevailing rate of wages then in effect shall be attached to all contract specifications.

Section 4: The Village of Winnebago shall mail a copy of this determination to any employer, and to any association of employers and to any person or association of employees who have filed their names and addresses, requesting copies of any determination stating the particular rates and the particular class of workers whose wages will be affected by such rates.

Section 5: The Village of Winnebago shall promptly file a certified copy of this ordinance only with the Department of Labor of the State of Illinois, as Public Act 98-173 (HB 2540), eliminated the need to also send a certified copy of this ordinance to the Secretary of State Index Division.

Section 6: Pursuant to Public Act 100-0154, which represented an enactment into law of HB 3120 amending 820 ILCS 130/9 of the Prevailing Wage Act, no newspaper publication of the prevailing wage rate is required, but rather the Village of Winnebago may satisfy the statutory newspaper publication requirement by posting on the Village's web site a notice of its

determination, with the hyperlink to the prevailing wage schedule for Winnebago County that is published on the official web site of the Department of Labor, and the Village shall satisfy the newspaper publication requirement via the posting process described above.

**Legend**

**M-F OT** Unless otherwise noted, OT pay is required for any hour greater than 8 worked each day, Mon through Fri. The number listed is the multiple of the base wage.

**OSA** Overtime pay required for every hour worked on Saturdays

**OSH** Overtime pay required for every hour worked on Sundays and Holidays

**H/W** Health/Welfare benefit

**Explanations WINNEBAGO COUNTY**

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.

**EXPLANATION OF CLASSES**

**ASBESTOS - GENERAL** - removal of asbestos material/mold and hazardous materials from any place in a building, including mechanical systems where those mechanical systems are to be removed. This includes the removal of asbestos materials/mold and hazardous materials from ductwork or pipes in a building when the building is to be demolished at the time or at some close future date. **ASBESTOS - MECHANICAL** - removal of asbestos material from mechanical systems, such as pipes, ducts, and boilers, where the mechanical systems are to remain.

#### CERAMIC TILE FINISHER, MARBLE FINISHER, TERRAZZO FINISHER

Assisting, helping or supporting the tile, marble and terrazzo mechanic by performing their historic and traditional work assignments required to complete the proper installation of the work covered by said crafts. The term "Ceramic" is used for naming the classification only and is in no way a limitation of the product handled. Ceramic takes into consideration most hard tiles.

#### COMMUNICATIONS TECHNICIAN

Installing, manufacturing, assembling and maintaining sound and intercom, protection alarm (security), fire alarm, master antenna television, closed circuit television, low voltage control for computers and/or door monitoring, school communications systems, telephones and servicing of nurse and emergency calls, and the installation and maintenance of transmit and receive antennas, transmitters, receivers, and associated apparatus which operates in conjunction with above systems. All work associated with these system installations will be included EXCEPT the installation of protective metallic conduit in new construction projects (excluding less than ten-foot, runs strictly for protection of cable) and 120 volt AC (or higher) power wiring and associated hardware.

#### LABORER, SKILLED - HIGHWAY

Individuals engaged in the following types of work, irrespective of the site of the work: asbestos abatement worker, handling of any materials with any foreign matter harmful to skin or clothing, track laborer, cement handlers, chloride handlers, the unloading and loading with steel workers and re-bars, concrete workers wet, tunnel helpers in free air, batch dumpers, mason tenders, kettle and tar men, tank cleaners, plastic installers, scaffold workers, motorized buggies or motorized unit used for wet concrete or handling of building materials, laborers with de-watering systems, sewer workers plus depth, rod and chainmen with technical engineers, rod and chainmen with land surveyors, rod and chainmen with surveyors, vibrator operators, cement silica, clay, fly ash, lime and plasters, handlers (bulk or bag), cofferdam workers plus depth, on concrete paving, placing, cutting and tying of reinforcing, deck hand, dredge hand, and shore laborers, bankmen on floating plant, grade checker, power tools, front end man on chip spreaders, cassin workers plus depth, gunnite nozzle men, lead man on sewer work, welders, cutters, burners and torchmen, chainsaw operators, jackhammer and drill operators, layout man and/or drainage tile layer, steel form setter - street and highway, air tamping hammermen, signal man on crane, concrete saw operator, screedman on asphalt pavers, laborers tending masons with hot material or where foreign materials are used, mortar mixer operators, multiple concrete duct - leadsman, lumen, asphalt raker, curb asphalt machine operator, ready mix scalemen (permanent, portable or temporary plant), laborers handling masterplate or similar materials, laser beam operator, con-crete burning machine operator, coring machine operator, plaster ten-der, underpinning and shoring of buildings, pump men, manhole and catch basin, dirt and stone tamper, hose men on concrete pumps, haz-ardous waste worker, lead base paint

abatement worker, lining of pipe, refusing machine, assisting on direct boring machine, the work of lay-ing watermain, fire hydrants, all mechanical joints to watermain work, sewer worker, and tapping water service and forced lift station mechanical worker.

**MATERIAL TESTER I:** Hand coring and drilling for testing of materials; field inspection of uncured concrete and asphalt.

**MATERIAL TESTER II:** Field inspection of welds, structural steel, fireproofing, masonry, soil, facade, reinforcing steel, formwork, cured concrete, and concrete and asphalt batch plants; adjusting proportions of bituminous mixtures.

**Other Classifications of Work:**

For definitions of classifications not otherwise set out, the Department generally has on file such definitions which are available. If a task to be performed is not subject to one of the classifications of pay set out, the Department will upon being contacted state which neighboring county has such a classification and provide such rate, such rate being deemed to exist by reference in this document. If no neighboring county rate applies to the task, the Department shall undertake a special determination, such special determination being then deemed to have existed under this determination. If a project requires these, or any classification not listed, please contact IDOL at 217-782-1710 for wage rates or clarifications.

**LANDSCAPING**
